

Strap-Grip Saddles and Fittings

C

Features:

- design provides greater resistance to end pull than conventional band clamps
- only the fittings shown below are designed for use with Strap-Grip Saddles
- saddles are sold in pairs and designed for use with 3/4" or 5/8" wide band clamps
- bands must be purchased separately
- band clamps should first be applied to the OD to seal the hose, then Strap-Grip saddles should be banded over the initial clamp to anchor the fitting in the hose

saddles only
